G. Frank Butler, Manager

If You Trade Out of Town, and I Trade Out of Town, what will Become of Our Town? STANDARD'S 'TRADE-AT-HOME' CAMPAIGN

Read these articles with care. They may present something you haven't thought of before. Patronize the people whose advertisements are here. They are neighbors and will treat you right. The money you spend with them stays in circulation in your district.

**YOU SHOULD BE AS LOYAL TO YOUR COM-
MUNITY AS TO YOUR NAME**

The Strathmore concerns listed here, conscious of the fact that thousands of dollars are being sent out of this territory for merchandise that can be bought at home, have launched a campaign in the hope that it will create a stronger feeling of community interest—a sentiment most vital for the prosperity of the entire community. In bold type you therefore read the slogan that they propose to popularize, "TRADE IN YOUR HOME TOWN."

The time for consideration of this question could not be more opportune than the present. "Preparedness," the watchword of Canada, should begin at home and can be exemplified in no more far-reaching manner than by real cooperation in this vital important "TRADE AT HOME" movement. It is a thought that should be taken into highest consideration by every person who earns their living in, or owes their success to, this community.

This campaign is launched in the firm belief that the people of this community will follow the dictates of their good sense, and bring the "TRADE AT HOME CAMPAIGN" to an actuality that will be of vast benefit to the entire territory.

This movement is no selfish propaganda of these progressive concerns who have combined in co-operative community appeal. They urge that you read the brief message they will give you each week through the columns of The Standard.

The firm resolve to "TRADE AT HOME" will not only help the retail merchants, but the manufacturer and jobber, the farmers adjacent to our town, and it will also help in every line of business. It will either directly or indirectly benefit every individual of this section.

Poison the Hoppers Report of Prov.

During the past week the farmers of the surrounding district have been diligently working to exterminate the grasshopper menace which has been steadily gaining headway in the fields. The Municipality have filled hundreds of orders for grasshopper poison, but were unable to keep up with the demand. They have now installed a new poison mixer, which, it is expected, will greatly relieve the situation. This mixer has a daily capacity of five tons.

Farmers in this district and surrounding country are urged to take every precaution and advantage to exterminate this pest, which, from year to year, exceed in numbers and are becoming a great menace to Canada's greatest industry.

THREE RADIO COMPANIES

Edmonton, June 6.—As a result of the radio popularity which has swept the length and breadth of the province, three new radio companies have been organized and have become incorporated under the joint stock companies act.

Crop Conditions

(Issued by Publicity Commission, Department of Agriculture, Edmonton, Friday, June 2.)

Although warm weather during the latter half of May has brought rapid growth to crops in general in Alberta and the grain is showing a healthy condition in most sections, a note of anxiety has crept into reports from some localities with respect to moisture conditions. Need of rain is emphasized in several reports received by the Agricultural Department from its agents. In the extreme southern areas rainfall has been fairly satisfactory, particularly in the southwest section of the province, while farther north, in some of the more central areas, need of moisture has been apparent. In the northern areas also there are dry spots, but conditions generally are good. There has been soil drifting to some extent in several southern localities, and the corn and grasshoppers are creating trouble to many sections. There will be no extensive suffering from lack of moisture, however, for another week or two. Seeding of grain crops is practically completed.

Southern Areas — Encouraging reports come from these areas with respect to moisture conditions, although in one or two localities there is need of rain, and there has been some soil drifting. Seeding of all grains is now practically completed. Fall crops are showing growth of from eight to ten inches, and is headed out at Glendon. Outcrops are causing damage in some districts, and grasshoppers are attacking outcrops and in great numbers. Precipitation at Lethbridge for May was 48.44 inches. The crops have been generally splendid growth of grass on the prairies.

Central Areas — In the more southern portion of the central area soil drifting has caused damage on the summer fallow, and on the lighter lands, in one or two places as high as 25 per cent. Moisture conditions are generally satisfactory, but the grain is not suffering extensively yet. Rainfall over the central areas averaged about two-thirds of an inch during May. Corn and wheat are showing excellent growth in some localities and grasshoppers are attacking. Hay crops are showing rather poor growth, somewhat has been winter killed, in some sections, but in more northern localities pasture conditions are good and livestock is picking up well.

Northern Areas — Grain is showing a fine, even growth and there is no suffering as yet from lack of moisture. There have been no killing frosts. The potato crop is particularly all in the ground, with reduced acreage in some localities. Pasture land is showing much improvement.

Grasshoppers — The campaign to combat the grasshopper pest is now well under way. Poison mixing stations are coming into operation. The farmers are actively cooperating in this work, and many districts are organizing community campaigns. The hoppers are now hatching out in large numbers over all the southern portion of the province.

Relief Work

Though many requests are still being received by the Agricultural Department from southern areas for continuance to relief in the way of food and other things the department is unable to carry on this work after June 1, since the legislature at the last session gave power to issue relief only until that date. While the government is sympathetic in this matter, it has no power to go further. Requests recently have come in asking that the government and farmers, in creating new plow shares, and seed, but the government has no power to issue relief in this regard.

HOSPITAL VOTE CARRIES

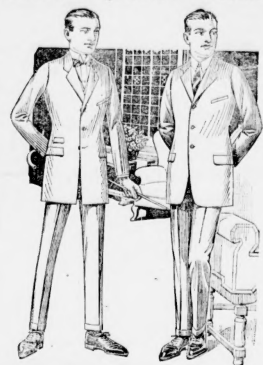

Following the successful vote on the municipal hospital district scheme in the Grand Prairie district, plans are being made for a county hospital. The debenture issue of the district will be for \$20,000. The district includes 72 townships.

IMMIGRATION

Figures from census show that 16, 174 immigrants entered Canada since the first of the year, and that 8,018 of these were from the United States, 1,529 from British countries and 4,227 from other countries.

The hamlets of Cluny and Standard have been incorporated as villages.

Aftermath of the Armageddon-Veteran

Hardly a day passes but the death of a veteran of the Great War is not recorded, says the Bassano Mail in a sympathetic editorial. Many of the returned apparently in the best of health, and eager and anxious to resume their places in civil life. The reverse of weeks, months or years, developed hidden weaknesses attendant upon the dreadful ordeal of modern war. Constitution undermined, brain diseased with the horrors of war, mind and muscles unable to respond to the will as heretofore, the veteran often finds himself outdistanced in the battle of life. Some of them, like the university professor at Vancouver, put a pistol to their head and "went" to join with many, many comrades of the living; others gradually weaken and drop off, as did a day still others struggle along and do their best with scarcely a word of comfort or sympathy from the rest of the busy world. It is a pity for the boys. They did their part. Their cause at home has suffered from irre-

TURNER NEWS

The Turner Club has decided to hold their picnic at Chevalle on June 14. It is planned to put on two ball games, also all kinds of races etc.

Mr. and Mrs. McKinnin of Calgary noticed on Friday evening and were guests at the Fr. Fraser house.

Stanley Rea played ball with the London team at Carleton Place Sunday.

Arthur Haley was Calgary visitor Sunday evening.

Grasshoppers are making their appearance in some spots, but the farmers are ready for them with plenty of poisoned bait.

Spontaneous and illustrated leadership at times, but the rank and file of the veterans are worthy and deserving. We are all wrapped up in wheat boards and the new Post Pass freight rate agreement now, but if there is a possibility of aiding the returned veteran in some practical way, the federal parliament should not overlook it.

Local Notings

OF LOCAL INTEREST
Readers are requested to send in items for this column not later than 12 o'clock Monday noon preceding day of publication. All local news items are welcomed by the Standard. Phone 17 or 68.

After Gilmore, Mrs. Gilmore and C. E. Henry, all of Vulcan, were in Strathmore Sunday, having driven on from the southern town.

Mrs. H. A. Davis and family, of Calgary, were week-end visitors with Mr. and Mrs. E. Dolan.

Mrs. A. Beveridge and children, of Calgary, are at present visiting Mrs. John McKinnin.

Paris has decreed the short skirt will be worn no longer. That is to say, no longer will the short skirt be worn. In other words, the short skirt will remain relatively short, but will be worn longer, or at least—well—any way?

Dr. Edmunds, who has been practicing medicine weekly for some time past, practicing dentistry, has gone to the coast for the summer to take charge of a practice there. During his absence his place will be taken here by Dr. T. C. Bruce, Calgary, who will be in Strathmore the second and fourth Mondays and Tuesdays of each month. Dr. Bruce has just recently been released from the Canadian Dental Corps, where he held the rank of Captain for five and a half years.

Mr. W. B. Cope, of Strathmore, has opened up a vacationing business at High River.

Mr. H. H. Forward, who left here some months ago for Pinedale, Ark., is now permanently located at La Mesa, California.

The C. P. R. department of natural resources are putting in 52 acres of snowbirds this year.

Mr. and Mrs. R. Bigney, Nanaimo, are rejoicing in the birth of a diamond boy on Friday afternoon at Strathmore hospital.

Mr. Harold Stock, who has been with the business branch of the Union bank for some years past, has been promoted to the position of accountant at the Medicine Hat branch. Mr. Stock conducted his bank service at Strathmore, and is well known locally.

HERVEY NEWS

Mr. Greenlee of Drumheller dropped in at the Chamberlain lunch last week for a short time. He seems to be looking well.

Mr. Late of Strathmore had charge of the services at Hervey on Sunday afternoon. On account of the extreme heat there was a small attendance.

Mrs. Jack McCoy was called over to Glenora on Sunday evening to the bedside of Mrs. Walls, who is quite ill.

Mr. Anne McNair was a week-end caller at the Glade house, calling on his family.

Mr. Julius Mosher performs very nicely with his new car, but he says that it makes him perspire almost as much to drive a car as it does to milk ten cows, but the cows earn him the most money.

U.F.A. Meeting

Will Urge South Road Be Put in Better Shape for Traffic

A meeting of the Strathmore U.F.A. was held on Saturday last at the King Edward hotel. H. W. Watson, president, occupied the chair.

The minutes of the previous meeting were passed. The first question discussed was U. F. A. Sunday, to be held June 18. It was decided to ask the ministers of the different churches to give appropriate addresses and that the local do to utmost to urge the members to attend.

The condition of the south road leading out of town, was discussed, and H. W. Watson was appointed to attend the next meeting of the municipal council to inquire if something could be done to make the road better for all traffic.

At the next meeting, to be held on June 17, a sports day will be discussed. Also the prospect of holding a picnic at the river, this to be joined with the immediate locals, if a date with them can be arranged.

FURTHER SLIGHT DECLINE IN THE COST OF LIVING

Ottawa, June 6.—A further decline in the cost of living is indicated in the government returns for the month of April. In retail prices the average cost of a list of 29 staple foods in 40 cities was \$10.26, as compared with \$10.34 in March, \$12.28 in April, 1921, \$15.99 in April, 1920, and \$15.51 in April, 1914. The chief changes for the month were substantial decreases in eggs, milk, potatoes. Meats averaged slightly higher, except veal. Coal and wood, coal oil and rent were practically unchanged.

The Weed Campaign

A campaign against the weeds of the province is being launched on a larger scale than ever by the Department of Agriculture this year. The chief aim of the new system adopted is to complete a survey of all the districts in the province to compile material on the best methods of eradication in each district. The weed branch now has its new weed inspectors on the job.

By an arrangement with the Minister of Municipalities, Hon. R. G. Reid, the weed branch is advising all municipalities as to the method of the department in handling the weed situation and is asking the co-operation

Hospital Meeting

Strathmore Cottage Hospital Board convened in the council hall on Monday evening, with Dr. Givins in the chair. The following members of the board were present: Mrs. D. Wheeler, Mrs. French, Sturgeon, McDonald and Phillips.

Minutes of the two preceding meetings were read for information. The correspondence was presented by the secretary. Considerable discussion took place in reference to collecting outstanding hospital fees. It was reported the town council had passed a resolution to pay the accounts of some indigent persons. A discussion also

Free Govt. Seed

Tests If Needed

Important Privilege Restored by Federal Minister of Agriculture

Farmers and seed merchants will be gratified to hear that the omission of Agriculture Hon. W. R. Motherwell, has determined to restore the privilege of having seed tested at the government laboratories free of charge to the extent of ten samples from each applicant. This free privilege covers a period extending from May 1 in one year to January 31 in the succeeding year. During the months of February, March and April a fee of 50 cents for each test will continue to be made owing to the congestion that usually occurs at that period, due to the testing of trade samples, and samples submitted by seed inspectors under the seed control act.

While the free privilege is open to all the vitality of seed can be readily ascertained by farmers and others by

Jersey Cattle Becoming Popular at the Coast

Vancouver, June 6.—Jersey cattle are beginning to rival Holsteins in popularity in these sections of the province largely devoted to dairying. At present, owing to the great demand for purebred Jersey heifers, the entire supply owned by members of the Jersey Breeders' Association has been sold out, so that the annual sale, which was to have been held this fall, will be postponed. The increased activity of the calf clubs throughout the province is responsible. It is stated, the boys and girls who belong to the clubs sending in more applications for Jersey heifers than can be supplied at present.

planting a hundred or two hundred grains in a flower pot or box of soil, which is kept moist, but not wet, and the pot or box placed in sunny window, but not subjected to either excessive heat or cold.

Laboratories for seed in vegetation conducted by the weed branch of the Dominion Department of Agriculture are established at Ottawa, Winnipeg and Calgary.

People and Events of Passing News Interest

- (1) The distribution of the King's Royal Maundy is a survival of the old observance on the Thursday before Good Friday, when the King would wash the feet of his humblest subjects while alms and clothing would be distributed. James the Second was the last monarch to perform this act. Alms are still distributed on this day, which is a Feast Day in the Anglican Church. In this picture the Duke of Gloucester and other dignitaries of the action Alms are seen as they were photographed after this year's ceremony.
- (2) How time flies. This is the two-year-old son of Lady Patricia Ramsey and grandson of the Duke of Connaught. He was snatched standing at the salute as the Guards swung past on their way to Buckingham Palace.
- (3) Olympic games for the females have been held in Monte Carlo recently, and representative competitors were present from most European countries. This picture shows the start of the 800 metre race in which were representatives from England, France, Italy, Belgium and Czechoslovakia.
- (4) Mr. C. M. Howarth, Chairman of the Canadian Pacific Steamships Limited, on his arrival at Quebec on April 10th on the S.S. "Empress of Scotland." This was the maiden trip to Quebec of the Company's new "Empress." The "Empress of Scotland," the largest ship in the Atlantic, was also on the Atlantic coast of the Canadian Pacific.
- (5) They say the fish are biting well in all parts of the country. This picture was taken in the Laurentians where the fishing is reported to be particularly good this year.
- (6) The Games conference did at least give the world-famous an opportunity to exchange views. Here we see M. Tschick, the chief Russian delegate, explaining it all to Lord George while the German Chancellor, Dr. Wirth, who appears between them, looks on in evident admiration at the Russian way of telling it.
- (7) Some authorities are suggesting that devotion to athletics will in time develop an unusually woman. Miss Hall, an English representative at the Women's Olympic games in Rome are showing the way to a better understanding of health from the crowd, but her pretty build and early hair would lead one to suppose there is more the less a charming girl for all that.
- (8) Talking of athletics for women, surely there is nothing more strenuous than the English idea of hockey as it is seen in this picture. It would remind one of our own Lacrosse, with a stick somewhat better adapted for being used against the ice than the English idea of hockey as it is seen in this picture. It would remind one of our own Lacrosse, with a stick somewhat better adapted for being used against the ice than the English idea of hockey as it is seen in this picture.
- (9) The first arrival of a new ship in port is an event, particularly when it is as important as the Canadian Pacific liner "Montreal," and so important a ship as Montreal. The "Montreal" is the largest ship sailing into Montreal, and the Riverview Club of that city marked her arrival by holding their regular luncheon in her spacious and beautiful dining saloon.

RED ROSE TEA is good tea

Always Pure and Clean and Kept Good in the Sealed Package

Freight Rates And Business

A special committee of the House of Commons has been appointed to study the whole question of freight rates with a view to bringing about a reduction in the existing high schedule, which, it is generally agreed, is having a detrimental effect on business, is operating to prevent a revival in industrial activity, and is particularly paralyzing to Western agriculture.

The problem of reducing rates in the face of an annual deficit of many millions of dollars in the operation of the National Railways is admittedly a difficult one. On the contrary, it is well within the realm of probability that the problem of reducing rates in the face of an annual deficit of many millions of dollars in the operation of the National Railways is admittedly a difficult one. On the contrary, it is well within the realm of probability that the problem of reducing rates in the face of an annual deficit of many millions of dollars in the operation of the National Railways is admittedly a difficult one.

There is, however, much force in the argument that a lowering in the freight rates of the railways will not necessarily mean a reduction in the revenue of the railways. On the contrary, it is well within the realm of probability that the problem of reducing rates in the face of an annual deficit of many millions of dollars in the operation of the National Railways is admittedly a difficult one. On the contrary, it is well within the realm of probability that the problem of reducing rates in the face of an annual deficit of many millions of dollars in the operation of the National Railways is admittedly a difficult one.

Support for this view is found in a comparative study of the freight rates of the railways of the United States and Canada. It is found that the freight rates of the railways of the United States are generally lower than those of the railways of Canada, and that the revenue of the railways of the United States is generally higher than that of the railways of Canada.

DOMINION OF CANADA IS HEAVY BUYER IN U.S.

Montreal, June 6. — During April Canada purchased \$14,000,000 of merchandise from the United States, or \$12.50 per every resident. Cuba was second best customer with \$5,325 per resident. This followed Holland with \$11.85, England with \$11.50, France \$11.50, Japan \$11.50 and Italy \$11.50.

The Lone Star Banknote Limited, have been incorporated at Jersey, with a capitalization of \$200,000.

NOTICE TO RATEPAYERS OF KEOMA

The Secretary will be at the M.D. office every Wednesday and can be found every other day at home, Phone 198, Strathmore.

Foolish Saving

Apenny saved is not always one earned. Sometimes it is two pennies lost. The merchant who spends nothing on advertising loses much more than he saves.

The money spent for plate glass windows is not lost on a cent; nor is the money spent on better window lighting.

Anything that increases favor, that adds to sales, that multiplies customers is very properly regarded as a good investment.

Advertising is a good investment just as plate glass windows are. Advertising sells more goods to more people than does window display.

A WORD TO THE PUBLIC

Do you resent having a merchant address his message to you in the form of an advertisement in our columns? On the contrary, is not your impulse to respond to his friendly overtures?

Newspaper Men Meet at Ottawa

Editor of Standard in Ottawa Representing Alberta at Convention

The annual convention of the Canadian Weekly Newspaper Association will be held at Ottawa this week commencing on Thursday morning. Newspapermen from all over the Dominion of Canada will be present to the number of over 100. Addresses of welcome will be delivered by Premier King, the Rt. Hon. Arthur Meighen and T. A. Cress. The convention will be addressed by experts in various departments of the newspaper business. The great object of the association is to improve the standards of practice in the weekly press and during the years of its existence it has done a great deal in this regard.

Last summer, following the convention at Vancouver, a resolution of co-operation was adopted whereby the members of the association agreed to exchange their respective journals as a public service.

Mr. John McNeill, editor of the Standard, will be at present the Alberta representative on the board of directors of the association. He has for several months been working to bring about a closer union of the members of the association.

HEALTH CONGRESS IN SESSION AT ST. JOHN

Dr. W. C. Laidlaw, Provincial Deputy Minister of Health, is attending the annual meeting of the Canadian Public Health Congress at St. John, N.B. Health experts from all over Canada are in attendance.

TOWN OF STRATHMORE

NOTICE is hereby given that all arrears of taxes imposed in 1921 in respect of any parcel of land situated within the limits of the town of Strathmore, which are not paid on or before the first day of July next, such land will be dealt with under the provisions of The Tax Recovery Act, 1922, with a view to obtaining certificate of title in name of the Municipality in respect of such parcel.

GRAIN PRICES

June 7, 1922

The following grain prices are for grain by wagonload at Strathmore, not truck prices, and no information of the public only. Figures are kindly supplied by Mr. Russell, of the Holden Road Elevator.

PERMITS EXPIRE IN JUNE

Special permits to teachers will expire in June. There are about 200 permit teachers now at work in this province. These permits will not be renewed unless necessary to keep the schools going. Indications are that the surplus of teachers in the province is rapidly being absorbed.
